KINDERGARTEN - APRIL 2023

WELCOME TO THE NEW ACADEMIC YEAR

Our children have been incredibly settling and getting used to the new class routines. We strive to cultivate a strong, collaborative school climate and culture that is focused on high academic development and achievement for all students. High standards for curriculum implementation and student learning.

We're glad you're here!

FROM THE DESK OF HOS

Dear Parents,

Greetings!!!

The biggest inspiration for early years educators are children.

I hope this newsletter finds you well. With Ramadan over, we have returned to our regular school day and welcomed the start of our Co-Curricular Activities. It is great to see students enjoying exploring their interests and developing new skills outside of the classroom. This also includes Friday club activities.

Students of KG 1 are well settled in their classes. Their smiles always bring in loads of sunshine and their gloom pinches our consciousness, their hurried feet signal a purpose to move and their stillness give us a moment to reflect; their unending giggles hide many a secrets and their silence leads to many a question; their questions give us food for thought and their answers fill us with awe.

Let's keep encouraging our little ones to continue with the same spirits. As we head into the warmer months, it is important that we take precautions to keep our students safe and healthy. Please ensure that your child comes to school with a hat and a full water bottle.

With Best Regards

KG HOS

HEAD OF SECTION= KG

FROM THE DESK OF SENIOR INSTRUCTOR

Dear parents,

“Children learn the best when they feel safe and valued”

Feeling safe and valued is vital to a child’s development. First of all, we welcome you to Kindergarten. The first year of school is always quite challenging and exciting as children become familiar with the school environment, make new friends and establish new routines. I believe we can help our children have a successful kindergarten experience together.

MS. SHAJITHA MOIDU

SENIOR INSTRUCTOR

We have been together for a month and our children have been incredibly getting used to class routines. They strive hard to adapt to the school climate and culture that is focused on holistic development. For the past few weeks, our young learners are building skills by engaging in activities. These activities help to enhance their creative ideas, problem-solving skills, critical thinking, and much more.

Children have experienced both physical and online classes for a month now. This new learning model and environment is no longer a learning barrier but instead an opportunity to explore and learn.

We want our students to cherish the memories they make at TCS Kindergarten. It is important for us to keep them motivated to come to school regularly. With your help, we can inculcate the values for a lifetime in them and encourage them to understand that hard work is the key to success and helps one exceed expectations and reap success.

Thank you

Ms Shajitha

EVENTS AT GLANCE

PARENTS ORIENTATION

Welcoming parents to the new academic session, Ms. Supreet Kaur - KG HOS , TCS Dubai spoke about the benefits of effective communication between parents and teachers. Moving further, she spoke in detail about different ways of nurturing a child in Kindergarten, supporting a transition, and thus building a strong foundation for a glorious future.

The parents were briefed about the rules and regulations of the school. Later, respective class teachers were introduced. An overview of the various subjects and the activities which would be undertaken in the year ahead were discussed. Parents were given an idea about the KG curriculum which is self-directed with hands-on learning activities that not only give our students a medium to fully utilize their creative talents and energies, but also help them in their all-round development.

PARENTS ORIENTATION

The orientation program proved to be a sincere effort made by the school in educating the parents to look after and guide their children in a proper manner. It also helped in evolving a common teaching strategy that helped the parents in identifying suitable follow-up methods to reinforce the learning process of their children.

FIRST DAY OF SCHOOL

A new school year means new beginning, new learning, new adventures, new friendship and new challenges. Our KG students were welcomed by the teachers and here are the glimpse of welcome assembly of the new academic year 2023-24.

RAMADAN CELEBRATION

“Let our religions unite us for human kindness rather than dividing us on what we believe – Eid Mubarak”

Ramadan is a time of spiritual reflection, self-improvement, heightened devotion and worship. TCS Kindergarteners presented the Ramadan assembly with new thoughts and information about the Holy month of Ramadan. Students were encouraged to understand that Ramadan teaches us to practice self-discipline, self-control, sacrifice, and empathize with those who are less fortunate, thus encouraging noble actions of generosity and compulsory charity (zakat). Our little kindergartners acted as torch bearers of all of these virtues. Their way of exhibiting the values just left us awestruck.

WORLD HEALTH DAY

World health day was celebrated in the school to sensitize our young learners to remain healthy by eating nutritious food, fruits, and vegetables. Little champs of TCS mesmerized all those present with their excellent demonstration of how to live a healthy lifestyle. They were encouraged to share the importance of healthy foods and speak about simple measures like a balanced diet, exercise, and proper sleep as essential ingredients of a healthy lifestyle.

WORLD HERITAGE DAY

World Heritage Day encourages us to celebrate all the world's cultures, and bring awareness about the importance of cultural monuments and sites. TCS Kindergarteners celebrated World Heritage Day to deepen the student's understanding of our rich heritage and culture. They appreciated the value of heritage and pledge to protect it for future generations. They demonstrated their love for the country's heritage through various displays of materials and model art.

WORLD HERITAGE DAY

WORLD EARTH DAY

"Let's nurture nature to have a better future".

Our TCS Eco warriors mesmerized us by working on SDG goals of having a clean and better environment for the near future. They understood the importance of the Earth and enthusiastically performed activities such as: Clean up the School Grounds, Students were taken for a walk around the school to pick up any trash/litter that they see around! **Recycling:** With the litter that they had collected, students learn about recycling! They understood which items go into a recycling bin, which are compost, and which will be landfill trash. Students recycled the litter that they collected.

KG1 COLOURS DAY- RED

The Red Colour Day celebration was a wonderful learning activity that helped children to develop their recognition and appreciation of the primary color, red as well as their creativity and fine motor skills. Students wore red dresses and brought toys and different materials in red. During the day, various activities were organized including painting, drawing, singing and dancing. The students participated in the activities with enthusiasm and eagerness. It was heartening to see the creativity and energy that the students displayed. Furthermore, our little ones were encouraged to speak about red colour objects that they see in their real lives. Students had a lot of fun and gained valuable knowledge about the primary colour red.
