Value Of The Month: RESPONSIBILITY

A message from the HOS & Team

What is responsibility?

We have a few different ways that we talk about responsibility. There's being responsible, taking responsibility, acting responsibly, and having responsibilities. In simple words, responsibility is about doing the things we are supposed to do, and accepting the positive or negative outcomes of our actions. A responsibility might be a task you are expected to do. For example, your teacher expects you to finish your homework on time and to do your best job. So it's your responsibility to do your homework and to do it to the best of your abilities.

In Surah Al-Baqarah, Allah says, "No bearer of burdens will bear the burden of another" (Quran 2:286). This verse emphasizes the idea that each person is responsible for their own actions and cannot be held accountable for the sins of others.

FOR YOUR HARDWORK AND DEDICATION

It has been an overwhelming experience of 1 and a half years at TCS. Looking forward to be an asset for the organisation. Although inculcating wisdom through teaching with effective technicalities is the need of the hour, but generations are being transformed with the enlightenment of experiential knowledge and education. Therefore, let's kick start the new era with innovation and collaboration which will cater to the holistic development of the students.
